

ITEM TECHNICAL CARD

|                                      |        |
|--------------------------------------|--------|
| d - Kabeldurchmesser (mm)            | 0,9    |
| Lo - freie Länge (mm)                | 65,0   |
| Fn - Belastung max (kgf)             | 3,06   |
| Ln - Federlänge (mm)                 | 122,30 |
| fn - Frühlingspfeil (mm)             | 57,3   |
| Rg - Federsteifigkeit (kgf/mm)       | 0,04   |
| De - Außendurchmesser der Feder (mm) | 9,0    |
| Fo - Federvorspannung (kgf)          | 0,24   |

|                                                                                   |       |                                                                                  |                                                                |                                               |                                                                                       |                                                                                                                                                                                                                                       |  |                         |
