

ITEM TECHNICAL CARD

|                          |              |
|--------------------------|--------------|
| course du piston (mm)    | 140          |
| dimensions (mm)          | 690x600x1830 |
| modèle                   | P001/20      |
| poids (kg)               | 94           |
| poids max chargement (q) | 200          |
| zone de travail (mm)     | 495x200x1125 |
| d. cylindre (mm)         | 75           |
| d. piston (mm)           | 48           |
| pression max (MPa)       | 69.3         |

|                                                      |  |       |                                                                                  |                          |                                                               |                                                  |                                                                                       |                         |
